

**NOTICE REGARDING EVIDENTIARY REQUIREMENTS
FOR OCCUPATIONAL EXPOSURE TO ASBESTOS**

Effective July 1, 2025, the Kaiser Aluminum & Chemical Corporation Asbestos Personal Injury Trust (the “Trust”) has adopted a policy to clarify the evidence required to demonstrate “Kaiser Exposure” as defined in section 5.7(b)(3) of the Kaiser Aluminum & Chemical Corporation Third Amended Asbestos Trust Distribution Procedures (“TDP”):

Notwithstanding any other requirements of section 5.7(b) of the TDP, to demonstrate that an Occupationally Exposed Person experienced meaningful and credible exposure prior to December 31, 1982 to asbestos or asbestos-containing products supplied, specified, manufactured, installed, maintained, or repaired by Kaiser Aluminum & Chemical Corporation (“Kaiser”) and/or any entity, including a contracting unit, for which Kaiser has legal responsibility (“Kaiser Asbestos Product”) at a specific jobsite, a claimant must submit evidence establishing (i) that the Occupationally Exposed Person was present at the jobsite during the period in which one or more Kaiser Asbestos Products was present, and (ii) the occupation of the Occupationally Exposed Person during the time of such exposure.

1. If the jobsite is on the Trust’s approved list of jobsites at which the Trust has acknowledged the presence and use of Kaiser Asbestos Products (the “Approved Site List”), a claimant may meet this evidentiary requirement through the submission of:
 - a. an affidavit of the Occupationally Exposed Person, a co-worker of the Occupationally Exposed Person, or (in the case of a deceased Occupationally Exposed Person) a family member of the Occupationally Exposed Person, or
 - b. employment records or other contemporaneous evidence.
2. If the site is not on the Approved Site List, a claimant may meet this evidentiary requirement through the submission of either:
 - a. an affidavit or sworn statement of the Occupationally Exposed Person; or
 - b. an affidavit or sworn statement of a co-worker of the Occupationally Exposed Person establishing the presence of the Kaiser Asbestos Product at the jobsite, **and** either (i) an affidavit of the Occupationally Exposed Person, a co-worker of the Occupationally Exposed Person, or (in the case of a deceased Occupationally Exposed Person) a family member of the Occupationally Exposed Person, or (ii) employment records or other contemporaneous evidence.
